## **Prescript for the use of premises not covered by the liquor license**

The Mirror room (Spegelsalen), the storage rooms in the basement, Blåsan, PrU-våningen, the student union office area and the committee floor (utskottsvåningen) are located outside the area where we are permitted to sell and serve alcohol. This prescript is meant to regulate the consumption of alcohol in these areas and in the remaining parts of the premises located outside the serving area, so that this can happen in a way that does not jeopardize the Association's liquor license or disrupt other activities in the building.

Alcohol that you have brought yourself may be consumed in those parts of the student union's premises where the liquor license does *not* apply, under the following circumstances:

- All such activities are conducted in accordance with MF's remaining regulatory documents, like the alcohol regulations and order regulations.
- There is a union body (committee, section or association) responsible for the compliance of the rules,
- No alcohol risks being brought into any of the areas covered by the liquor license,
- There is *no* passage into the serving areas,
- That the selling and serving of alcohol is not disrupted in the serving areas,
- The premises in question are cleaned immediately after the activity has finished and are returned to their *proper* state.

Furthermore, these premises are not meant to be used for sittings for more than 30 people. Such events should be carried out in the serving areas within the frame of what is stated in the license.

Violation of the above stated will lead to a ban of use and a penalty fee. Activities can be stopped post haste by the house manager, the holder of the liquor license or the chairperson of the Administration Committee.
